Your Turn-Key Electrical Supplier & Installer

The ELEC TROLINK Difference

Rely on the **Experts** for all your **Home** & **Business** Electrical Needs

PROFILE

Your TURN-KEY Electrical Supplier & Installer

ABOUT US

With our 25+ years of industry experience in electrical and renewable energy markets, we offer only the most reliable and trustworthy services and products for our clients and installers. Our company offers an array of well-known, SABS-approved brands in-house. Our commitment to high standards ensures that our products fulfill SANS standards and all regulations, guaranteeing compliant installations and eliminating issues, when partnered with a registered installer for a Certificate of Compliance. We offer turn-key services and products in the electrical and renewable energy markets, built on our industry experience.

OUR LEADER & CEO

Louis Erasmus is the founder and CEO of Electrolink, a well-established electrical services company that has been serving its community since 1995. With a National Diploma in Electrical Engineering from the Vaal University of Technology, as well as a Red Seal in Electrical trade and Wiremans license in regulations 1042, Louis has been able to provide quality services at reasonable prices.Through his superb work ethic and Christian values, Louis has become well-known for his fair and strong leadership. He instills these values in his employees, ensuring that they approach every project with the same level of work ethic and pride.

Solar & Generators

Our solar panel installation service is designed to help you save on your energy bills. We use high-quality solar panels that are designed to maximize energy efficiency and reduce costs. Our team of experts will work with you to design and install your energy system that will meet your unique requirements. At Electrolink electrical, solar and generators, we understand that our customers need reliable and efficient generator solutions. That's why we offer a range of generators from top brands.

Electrical Reticulation

At Electrolink, we offer high-performance electrical reticulation and connection solutions for residential, commercial and industrial properties. Our advanced engineering provides power supply, distribution boards and cable reticulation between transformers that is reliable and energy efficient. With years of experience in the field, we understand that each customer's needs are unique and as such we customize our solutions to meet any requirement.

Electrical Fault Finding-24/ 7 Support

Are you looking for reliable and professional 24/7 support for the electrical equipment in your home or office? Our dedicated team is on standby to provide assistance whenever you may need it! We understand how essential a continuous service can be, so we are committed to delivering high quality round-the-clock care. Our team of experts will respond quickly and efficiently to your request and provide any assistance needed. You can trust that our prompt 24/7 support ensures that all your electrical needs will be taken care of.

Wired and Wireless Security Systems

Every customer wants their property to be safe and secure. That's where our wired and wireless security systems come into play. We provide products that offer the highest security for you and your family. Our security systems can provide you with a range of different features from alarm systems, gate motors, CCTV cameras, electric fencing and more. With our systems, you can monitor your home or business premises 24/7 or when needed. Our security system is designed to detect any suspicious activity and notify safety personnel immediately.
